

Coveo Search Chrome Extension

Serve relevant knowledge instantly, wherever your employees are working.

Access the power of Coveo's search and recommendations from within your Chrome browser.

Why confine search to intranets and portals? Coveo's Chrome extension brings knowledge into the flow of work. Modernize your employee experience by allowing employees to find what they need, without switching platforms.

Benefits

- ▶ **Help your teams accomplish more** — Serve enterprise-wide knowledge within the tools your employees are already using, so they don't lose time and focus.
- ▶ **Augment the employee journey** — Enhance employees' workflows by serving contextual recommendations over Google Drive, Sharepoint, Confluence, and other web-based platforms.
- ▶ **Personalize more employee touch points** — Keep the experience relevant and personal throughout your employees' entire journey.

Key features

- ▶ **AI-powered search and recommendations** — Coveo's renowned machine learning uses context to fine tune results and deliver consistent relevance.
- ▶ **Show documents, people and conversations** — Discover knowledge, subject matter experts and Slack logs, all within the Chrome extension.
- ▶ **Customizable interface** — Apply your branding to the extension and adjust other components within the Coveo platform.
- ▶ **User-level configuration** — Each employee has different needs. Allow them to choose in which domains the extension will be loaded.
- ▶ **Powerful analytics** — Access deep insights within the Coveo reporting platform, to better understand the needs of your employees and content gaps.

Speedbit V2 Release Notes
